

11th Annual Patient-Reported Outcome Consortium Workshop – Cancelled

Scheduled for April 22 – 23, 2020

Sheraton Silver Spring Hotel
8777 Georgia Avenue
Silver Spring, MD 20910

On March 11, 2020, the PRO Consortium announced the cancellation of the *11th Annual Patient-Reported Outcome Consortium Workshop*. This decision was made by the PRO Consortium leadership team based on an abundance of caution due to the uncertainty surrounding the spread of COVID-19. Although it was a tough decision, it proved to be the right one. We truly missed the valuable scientific sessions and informal networking that only a face-to-face event can provide. We look forward to resuming that type of workshop when circumstances allow. Our 12th Annual PRO Consortium Workshop (April 14-15, 2021) will be held virtually and more information will be forthcoming.

Even though the workshop was cancelled, the PRO Consortium has continued to make significant progress in a number of areas. To provide an update on activities since the *10th Annual PRO Consortium Workshop* in April 2019, a presentation providing a general update on the PRO Consortium was prepared. In addition, posters were updated or developed to summarize the status of the PRO Consortium’s working groups and the ePRO Consortium as of April 2020. Links to these documents are below.
